SOCIAL DISTANCING
BROCHURE

2m

What is social distancing?

Social distancing measures are steps you can take to reduce social interaction between people. This will help reduce the transmission of coronavirus (COVID-19).

They are to:

Avoid contact with someone who is displaying symptoms of coronavirus (COVID-19). These symptoms include high temperature and/or new and continuous cough.

Avoid non-essential use of public transport where possible.

Work from home, where possible. Your employer should support you to do this. Please refer to employer guidance for more information.

Avoid large and small gatherings in public spaces, noting that pubs, restaurants, leisure centres and similar venues are currently shut as infections spread easily in closed spaces where people gather together.

Avoid gatherings with friends and family. Keep in touch using remote technology such as phone, internet, and social media.

Use telephone or online services to contact your GP or other essential services.

Everyone should be trying to follow these measures as much as is practicable.

We strongly advise you to follow the above measures as much as you can and to significantly limit your face-to-face interaction with friends and family if possible, particularly if you:

are over 70

have an underlying health condition are pregnant

This advice is likely to be in place for some weeks.

We print your ideas !
If you cant see the signs you need please contact us and we will help you design the signs your need.

STOP THE SPREAD OF GERMS

CATCH IT
Germs spread easily. Always carry tissues and use them to catch your cough or sneeze.

BIN IT
Germs can live for several hours on tissues. Dispose of your tissue as soon as possible.

KILL IT
Hands can transfer germs to every surface you touch. Clean your hands as soon as you can.
