Health & Safety Signs
Version 19

Choose the right material for your needs

Self Adhesive
A flexible gloss PVC with a permanent adhesive backing.
For a strong bond apply to a smooth and clean interior or exterior surface.
This material is best used indoors.

Rigid Plastic
1mm thick rigid PVC for interior or exterior use.
Can be drilled and fixed to a wide range of surfaces.

Photoluminescent
Glow in the dark signs ideal for fire exit signs and fire equipment signs.

Rigid Plastic with a self adhesive backing.
1mm thick rigid PVC with self adhesive backing for interior use on smooth surfaces.

Photoluminescent self adhesive
Glow in the dark signs ideal for fire exit signs and fire equipment signs.
Complete with a self adhesive backing ideal for internal use on smooth surfaces.

Composite Board
3mm resin core with a white aluminium face this is strong and rigid ideal for external or internal use.

3mm Foam PVC
Mainly used for double sided signs, durable and lightweight, but can be used for internal or external work

Zintec
1mm thick steel sheet which is zinc coated ideal for external temporary signage.

Traffic Signs Plate Only
Class 1 reflective mounted on 3mm aluminium plate. Ideal for fixing to walls.

Traffic Signs with Sign Fix
Class 1 reflective mounted on 3mm aluminium plate.
Designed to fix to all sizes of posts.

Choose the correct size sign for viewing distance (approx. max distance)

300mm x 100mm
11m

400mm x 150mm
22m

600mm x 200mm
36m

This is to be used as a guide only.

How to order

1 Select the sign you need by choosing the code below the sign
   e.g MAP. 01
2 Select the size you need, the sign sizes available are shown under each sign e.g. 450mm x 600mm.
3 Select the material required e.g. Rigid plastic

Safety helmets must be worn in this area

MAP01B - 450x600
MAP01C - 300x400

Contents
